MEMORANDUM FOR: CHIEF, HOMECOMING-ARMY AUGMENTATION TEAM

SUBJECT: Analysis of OACSI Intelligence Files

In accordance with your request of 28 January 1973, a review of the OACSI  
files on the seventeen U.S. Army PW whose names did not appear on the PRG  
list of 27 January 1973 has been conducted. Results of the file review  
are attached. As you will note, with the exception of the case of Vernon  
Johns OACSI finds substantial reason to believe that all of the men whose  
cases were studied were in fact captured alive by the enemy.
